Appl. No. : 09/989880

Inventor(s) : Jacobson et al.

Issued : Sep. 7, 2004

For : LOW TEMPERATURE ALKALI METAL ELECTROLYSIS

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in column 9 – line 58, after review of the application by Supervisory Patent Examiner Roy King, who denied your request citing the following comments: "Claim 4 of the patent depends on claim 3 of the patent, claim 12 of the patent corresponds to claim 5 in the application, which correctly depended on claim 1". Therefore, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request in this matter is hereby denied.

A handwritten signature in black ink, appearing to read "Stacy Powell, Sr.", with some additional scribbles.
